Freestanding Dishwasher, Sanitise

Contemporary

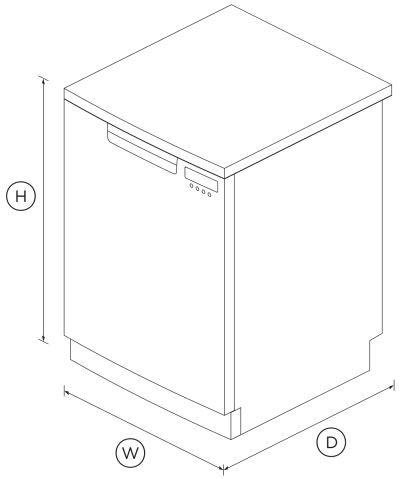

With flexible racking you can adjust to suit your load, and multiple wash features for beautifully clean dishes.

- Six wash programs, as well as additional Quick wash, Sanitise and Extra Dry options
- Auto option senses the optimum wash cycle for your dishes
- Full width utensil tray for quick access to cutlery

DIMENSIONS

Height	**850 - 870 mm**
Width	**597 mm**
Depth	**600 mm**

FEATURES & BENEFITS

Quick, Sanitise and Extra Dry options

The Quick wash modifier delivers a faster wash while maintaining performance. The Sanitise option provides extra protection, killing 99.9% of bacteria* in the final rinse. The Extra Dry setting is perfect for plastic dishes. *Certified to NSF/ANSI Standard 184

A reliable wash

The three-stage filtration system results in a superior clean. Cup racks, wine glass supports and a utensil tray allow safe and easy cleaning of everyday items. A rinse aid indicator reminds you to top up for squeaky-clean dishes.

Flexible wash options

This dishwasher offers six wash programs with extra wash modifiers, including 'Auto' which automatically senses the optimal wash cycle for your dishes.

Easy to load

Designed to fit 15 place settings, the flexible racking system features a third sliding rack for cutlery and utensils. The middle basket, cup racks and wine glass holders are easily adjusted to accommodate different sized dishes.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
