Oven, 60cm, 9 Function, Self-cleaning

Contemporary

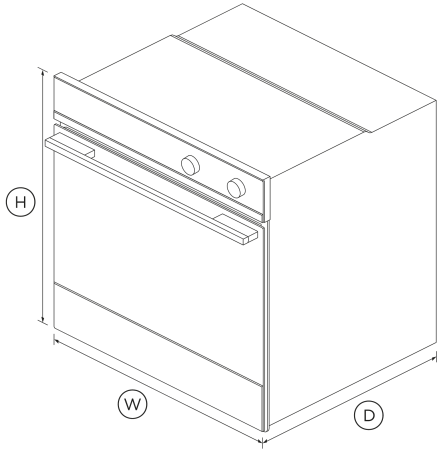

With generous capacity and beautiful contemporary styling, this built-in oven will complement your kitchen design perfectly.

- 85L total capacity, with 9 oven functions including Pastry Bake, Slow Cook, and Roast
- Moisture level control with ActiveVent™ technology
- Pyrolytic self-cleaning function breaks down food residue for an easy clean
- Non-tip, full-extension shelves for safe removal of hot dishes

DIMENSIONS

Height	**598 mm**
Width	**596 mm**
Depth	**565 mm**

FEATURES & BENEFITS

Multi-function Flexibility

Nine functions including Roast, Pastry Bake and Fan Grill mean no matter what you're cooking, you've got the right heat to match.

Generous capacity

With a generous sized internal cavity of 85L total capacity, you can create several dishes at once using multiple shelves.

ACTIVEVENT™ TECHNOLOGY

With ActiveVent technology for optimised moisture levels and AeroTech™ for even heat distribution, you'll get perfect results even when using multiple shelves.

Cleaning is simple

Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

BEAUTY OF CHOICE

With the choice of stylish stainless steel or elegant black, you can choose the finish that complements your kitchen design best.

Safe and sound

The CoolTouch door features triple glazing and a cooling system that ensures it's safe to touch from the outside – protecting both your hands and the surrounding cabinetry.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
