

5kg Series 3 Vented Dryer, Auto Sensing, Full Reverse Tumbling

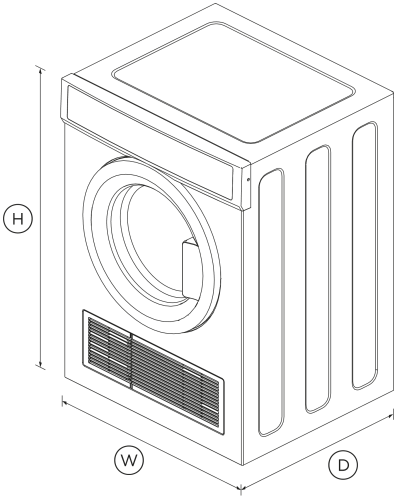

Series 3 | Vented

- Dry your clothes efficiently, without over drying, in this vented dryer that's perfect for smaller households.
- Four dry cycles including Delicate, Heavy and Everyday
 - Auto-sensing detects moisture levels to prevent under or over drying
 - Full reverse tumbling for an even dry and less tangling of clothes
 - Comes with wall brackets, making it easy to hang for a tidy laundry

DIMENSIONS

Height	830 mm
Width	600 mm
Depth	575 mm

FEATURES & BENEFITS

- Auto-Sensing Technology**
Auto-sensing prevents over-drying by sensing moisture levels inside the drum and shutting off automatically. This helps clothes last for longer and reduces energy consumption.
- Cares For Clothes**
This model has four fabric care cycles including Delicate and Heavy, so all your items are taken care of. Select a cycle with the easy to use SmartTouch™ controls.
- Simple Installation**

Vent out either the front or the back of this dryer. A wall mounting kit is included and the control panel can be inverted easily.

Easy Loading
The robust dryer door features die cast metal hinges that open to a full 180° for easy access and loading.

SPECIFICATIONS

Capacity	
Total capacity	5 kg
Consumption	
Energy rating	2 star
Energy usage	220kWh/year
In-use energy carbon emissions estimate	20.9kgCO2e/year

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
