

Series 9 Integrated Dishwasher, Heat Pump

Integrated

Designed for everyday energy efficiency, this Integrated Dishwasher features the latest innovation in Heat Pump Technology to reduce energy use by up to 50%*. On the inside, low energy drying and refined detailing brings exceptional performance and style to your kitchen.

- Heat Pump technology helps reduce energy usage by up to 50%* compared to a standard dishwasher
- Auto Door Open ensures beautifully dry dishes with less energy, Air Curtain channels steam away to protect cabinetry
- Quiet cycle runs at as low as 40 dBA, ideal for open-plan living

- Flexible racking and secure glassware holders adapt to the way you wash, caring for everything from wine glasses to oven trays

DIMENSIONS

Height	820 - 880 mm
Width	597 mm
Depth	554 mm

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
