

511L Series 7 French Door Refrigerator Freezer, Ice & water

Series 7 | Contemporary

With generous storage tailored for fresh produce and a sleek, contemporary design, this French Door Refrigerator is a seamless fit for any kitchen. It also offers the convenience of chilled water and fresh ice on demand.

- Recessed handles create a sleek, modern look to complement any kitchen design
- Extra fridge space and dual humidity bins offer plenty of room for fresh produce and deli items
- ActiveSmart™ technology maintains the ideal temperature to help keep food fresher for longer

- Slimline water dispenser and internal ice maker provide chilled water and ice on demand

DIMENSIONS

Height	1725 mm
Width	790 mm
Depth	707 mm

FEATURES & BENEFITS

Complementary design

Recessed handles and flat doors create a sleek, streamlined look that blends seamlessly with any kitchen aesthetic. Choose between stainless steel or elegant black stainless steel to perfectly complement your kitchen style.

Ample fresh storage

Designed for those who prioritise fresh food, this refrigerator features a 70:30 fridge-freezer split, offering extra fridge space and an additional humidity-controlled drawer. Ideal for storing fresh produce or separating deli items and meats, it ensures everything has its place.

Dual humidity drawers

Two full-width humidity-controlled drawers create ideal microclimates to keep fruits and vegetables fresher for longer, ensuring your produce stays crisp and delicious.

ActiveSmart™ Foodcare

ActiveSmart™ Foodcare technology responds to everyday use by adjusting airflow, temperature, and humidity to help keep food fresher for longer.

Clever energy

Your refrigerator adapts to daily use by cooling and defrosting only when necessary. This ensures energy is used efficiently without compromising food care.

Ultra Slim Water Dispenser

The slimline dispenser provides cool, filtered water and easily accommodates almost any jug or vessel—all without compromising refrigerator storage space.

Ice maker

Fresh ice is always on hand in a dedicated freezer bin. Turn it off to free up space when needed, or activate the boost function for extra ice during busy times.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
