

60cm Series 5, Contemporary Double Oven, 7 Function

Series 5 | Contemporary

For those who love to create. Two independent ovens so you can cook multiple dishes simultaneously.

- 71L + 71L of total capacity across two ovens
- Seven functions including Fan Bake and Fan Forced
- Catalytic liners break down oil splashes during cooking for an easy clean
- Non-tip telescopic shelves so you can safely slide hot dishes out of the oven

DIMENSIONS

Height	1077 mm
Width	595 mm
Depth	567 mm

FEATURES & BENEFITS

Cooking Flexibility

This built-in oven has seven functions with pre-set temperatures, including Bake, Fan Bake and Fan Forced, allowing you to use a variety of cooking styles.

Sized To Suit

Designed for multi-shelf cooking, this is one of the largest built-in ovens on the market with two cavities providing 142L total capacity. The higher internal cavity allows you to fit a large casserole dish, the family roast and a pie for dessert.

Easy cleaning

This built-in oven has catalytic liners that break down oil and fat splashes during cooking so you don't have to spend hours cleaning.

Safe and sound

The CoolTouch door with triple glazing and cooling system is safe to touch from the outside, protecting your hands and the surrounding cabinetry.

Accessories

This built-in oven comes with a number of handy accessories including fat filters, a flat brushed baking tray and a grill rack.

Designed to match

With their premium handle styling and stainless steel finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
