Front Loader Washing Machine, 9kg, with Time Saver

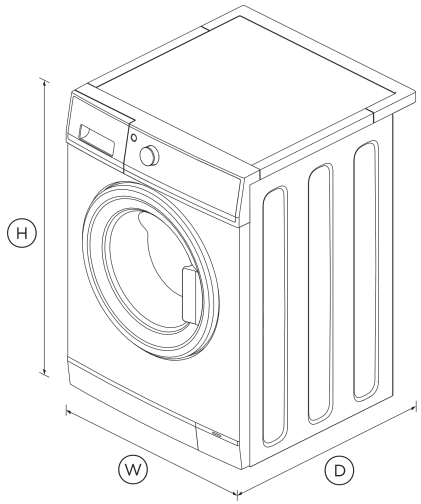

This front loader cares for all kinds of fabrics, with a cycle for everything from delicates to bulky items.

- 13 wash cycles including Sports, Wool and a 15 minute Super Quick cycle, with extra wash functions such as Time Saver and Soak
- Add a Garment function allows you to add items mid cycle
- 1400 RPM spin speed means more water is extracted from your wash resulting in a shorter dry cycle

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
