Double Oven, 60cm, 4 Function, 104L

Contemporary

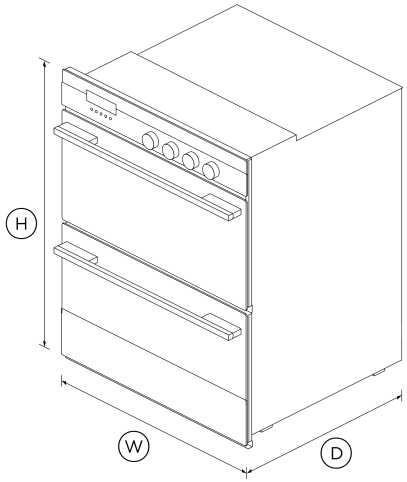

Perfect for smaller kitchens thanks to a more compact height, you'll still have plenty of room across your two independent ovens.

- 42L + 62L total capacity across two ovens
- Four oven functions, including Defrost

DIMENSIONS

Height	**718 mm**
Width	**595 mm**
Depth	**564 mm**

FEATURES & BENEFITS

Cooking flexibility
This built-in oven has four functions with pre-set temperatures, including Bake, Fan Forced and Fan Grill, allowing you to use a variety of cooking styles.

Sized to suit
This built-in oven provides a generous 62L + 42L of total capacity across two cavities providing enough space for a large family roast with room to spare.

Easy cleaning
This built-in oven has catalytic liners that break down oil and fat splashes during cooking so you don't have to spend hours cleaning.

Safe and sound
The CoolTouch door with triple glazing and cooling system is safe to touch from the outside, protecting your hands and the surrounding cabinetry.

Accessories
This built-in oven comes with a number of handy accessories including a fat filter, grill pan and a grill rack.

Complementary design
With their premium handle styling and stainless steel finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
