Width	897 mm	Chromed shelf runners 1 set
Depth	600 mm	Flat wire shelf 1 Grill rack TRUE Roasting dish 1 Square foot covers, stainless steel 1 Step down wire shelf •

FEATURES & BENEFITS

Quality And Durability

This freestanding cooker has been carefully crafted in every detail from performance to durability, using quality materials including the balanced door and finely tuned dials.

Impressive Capacity

With an extra large 140L capacity, this freestanding cooker has plenty of space for cooking multiple dishes at the same time.

Power & Control

Instant and immediate control from the highest to the gentlest heat. The finely tuned cooktop controls let you sear and stir fry over powerful heat, or simmer a delicate sauce to perfection.

Even Heat

Dishes on the top shelf turn out as perfectly as the ones on the bottom, due to our AeroTech™ convection system that circulates air evenly throughout the entire oven.

Easy To Clean

Cleaning up spills is effortless. Your cooktop simply needs a quick wipe to keep it looking good as new for years to come.

Safe And Sound

The door and cavity cooling system keeps the heat on the inside, protecting your hands and surrounding cabinetry.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy**

Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
