

491L Series 5 Refrigerator Freezer, Ice & Water

Contemporary

With ample storage and a stylish stainless steel finish, for a timeless look.

- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature
- Spacious bottom freezer with full extension drawer gives easy access to frozen goods.
- Door water dispenser and internal ice maker

DIMENSIONS

Height	1715 mm
Width	790 mm
Depth	695 mm

FEATURES & BENEFITS

ActiveSmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It's technology which understands how you use your refrigerator and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

Clever Energy

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.

Easy Cleaning

No more permanent dirty marks with our EZKleen feature for stainless steel refrigerators. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

Ice Maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.

Simple storage

This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

WATER ON TAP

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your refrigerator.

Design quality

Our refrigerators are designed and built using quality materials. We use real stainless steel, and solid glass for shelving.

SPECIFICATIONS

Accessories (sold separately)

Water filter replacement **847200 - FWC3**

Capacity

Total net volume	490L
Volume freezer	142 L
Volume refrigerator	348 L

Consumption				SKU	26476

<p>Where applicable:</p>					
<p>All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.</p>					
<hr/>					
<p>Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.</p>
