Oven, 60cm, 7 Function, Self-cleaning

Contemporary

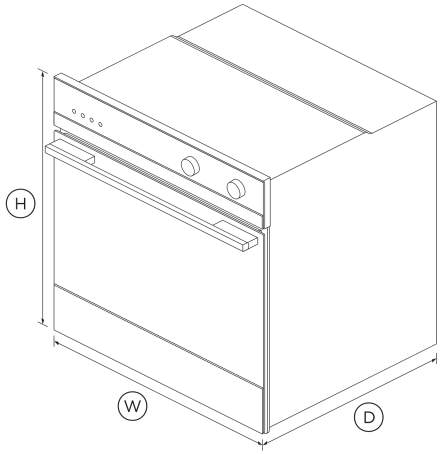

With generous capacity and beautiful contemporary styling, this built-in oven will complement your kitchen design perfectly.

- 85L total capacity
- Seven oven functions including Pastry Bake
- Pyrolytic self-cleaning function breaks down food residue for an easy clean

DIMENSIONS

Height	**598 mm**
Width	**597 mm**
Depth	**565 mm**

FEATURES & BENEFITS

Cooking flexibility

This built-in oven has seven functions with pre-set temperatures, including Bake, Fan Bake and Fan Forced allowing you to use a variety of cooking styles.

Self cleaning

The self-clean function breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth. For best results, wipe down the inside of your oven door before you use the self-clean function.

Sized to suit

Designed for multi-shelf cooking, this is one of the largest built-in ovens on the market providing 85L of capacity. The higher internal cavity allows you to fit a large casserole dish, the family roast and a pie for dessert.

Safe and sound

The CoolTouch door with triple glazing and cooling system is safe to touch from the outside, protecting your hands and the surrounding cabinetry. Getting large dishes in and out of the oven is a breeze with non-tip shelves.

Even cooking

Our built-in ovens feature AeroTech™ – a technology that circulates heat evenly, ideal for multi-shelf cooking.

Complementary design

With their premium handle styling and stainless steel finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
