Width	600 mm
Depth	645 mm

FEATURES & BENEFITS

Cares For Clothes

13 drying cycles including Freshen, Heavy and Easy Iron for every type of garment. Select the cycle that best suits your load from delicates to sheets to confidently dry your laundry.

Avoid Over-Drying With Auto-Sensing

Auto-sensing technology measures moisture inside the drum, shutting off at the perfect time to avoid over-drying your clothes. It helps them last longer and reduces energy wastage.

Too Precious To Tumble?

The drying rack is designed for items that can't be tumble dried. It fits easily into the dryer and delivers the perfect result for those precious delicates, shoes and toys.

No Venting Required

Condensation is collected so there is no need for external venting, allowing your dryer to be placed almost anywhere in your home.

Drum Light

A handy interior light turns on when you open the dryer door providing improved visibility inside the drum.

Designed To Match

The complete package for a beautiful laundry. This 8kg Condensing Dryer is designed to match with our Front Loader Washing Machines. With outstanding aesthetics and complimentary wash and dry cycles, they become the perfect pair to deliver complete fabric care.

- Energy Label
- Installation & User Guide (English)

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
